WANTED

FINANCIAL AND COMMERCIAL.

CINNANT ENQUIRER OF FINANCE. {
MONDAY EVENING, April 13, 1874.
There was more animation in monetary circles than the week previous, and a fair degree of activity in nearly all departments. Nothing new, however, was developed in the discount market. A fair demand for loans was reported, but the banks were able to accommodate all the bulk of the approved paper presented, though they are scrutinizing pretty closely, and some were confining their favors to depositors. The different departments of trade are well represented in the list of borrowers, and the demand was made for nearly all kinds of business. The bookkeeping was brisk the greater part of the week, and there was a steady drain of currency to the interior. Balances were reduced, though the supply was ample for legitimate purposes. The demand from the interior to-day was light, and there was a material increase in the deposits. Rates of interest are unchanged. Depositors were supplied at 899 per cent. There is less private capital seeking investment, but not much paper aloft in the open market, and good names were readily placed at 899 per cent, though there were transactions at 10 per cent. Loans were made on call at 6 per cent. on first-class collaterals. The maturities were not large, and were promptly paid. There was a firm market for Eastern exchange the greater portion of the week, the sales being for up to the receipts. The London market was moderate, and the supply being hardly equal to the demand, rates were advanced. New York is now bought at par, and bankers are charging 50c. per \$1,000 premium. Boston, Philadelphia and Baltimore exchange is bought at 1-20 discount, and 1-20 premium is the selling rate.

	Buying.	Selling.	
New York Exchange.....	1-10-91 do. dis.	1-10-91 do. dis.	
Boston Exchange.....	1-10 do. dis.	1-10 do. dis.	
Philadelphia Exchange.....	1-10 do. dis.	1-10 do. dis.	
Baltimore Exchange.....	1-10 dis.	1-10 dis.	
There was a firm market for Government securities in New York the greater portion of the week, though no important change. To-day the market was stronger, and nearly the whole list shows an improvement on the closing rates on Saturday, and they were very firm this afternoon. The closing quotations for three days past compare as follows:

TOBACCO—We have to again report a light
week's business in leaf tobacco; the unfavorable
weather for growing and the prevailing low prices
at our four weekly still continues, and not until we
have a warm, soft season can we hope for any im-
provement. The market is still very dull, and
longer and show a small advance. Old cutting
leaf is without change. Ohio seed is quiet. The
at all offerings at auction for the week were 322

New York Dry Goods Market.

NEW YORK, April 13.—There is a better feeling in the market than has been some time, and no record in the market for staple cotton goods, ribbons, percales and dress goods. Cotton goods are nominally steady and unchanged in prices in the West, but a bold and aggressive speculation in the more popular makes. Amoskeag denims and tickings are sold up to receipts and are firm. A few of the more popular styles are in great request. Woolen goods are quiet and unsettled.
